Consistency in the bathroom with KEUCO PLAN blue fittings

Thermostatic bath tub mixer augments the extensive assortment

The PLAN assortment continues to grow: KEUCO now offers an on-wall mounted solution for the bath tub. The PLAN blue thermostatic bath tub mixer impresses with a timeless and perpetual form, a defining feature of the PLAN blue fittings series' enduring design. That makes it perfect for universal use, allowing combinations with a variety of furnishing styles.

The PLAN blue thermostatic bath tub mixer is ideal for new constructions as well as modernisations of existing bathrooms. The connections to the water supply are concealed behind two round decor discs. Water temperature and quantity can be conveniently adjusted with the handles on the left and right. The thermostatic bath tub mixer is equipped with a temperature block at 38 °C, thus minimising the risk of scalding. The spout is positioned symmetrically in the centre. Beneath the mixer is the connection for the shower hose.

Produced in slender PLAN blue design, it perfectly matches the look of PLAN blue thermostatic shower mixers. Numerous accessories for bath tub, shower and washbasin round off the bathroom furnishings. Available in classic chrome-plated surface or accentuating matt black, it opens up abundant possibilities for modern bathroom design, such as in hotels, the healthcare industry, or the private bathroom. With the utmost precision in workmanship, the PLAN blue thermostatic bath tub mixer promises the high quality and longevity typical of the PLAN series.
