KEUCO EDITION 11 ART

Perfect colour harmony for the bathroom

With its harmonious colour and surfaces concept, EDITION 11 ART by KEUCO sets new standards in bathroom design. Central to this collection is the homogeneity of colours, surfaces and materials, which facilitate the creation of a bathroom with a unique, tone-on-tone aesthetic. Coordinated colours for washbasins and bathroom furniture, combined with fittings and accessories in various finishes, together with the SOMARIS mirror cabinet or a round light mirror, create a harmonious overall concept that combines pure elegance with timeless and modern design.

Consistency down to the last detail

With EDITION 11 ART, designer Dominik Tesseraux of Tesseraux + Partner has developed a bathroom furniture concept that creates bathrooms with delicate lines, a monolithic feel, and stylish colours that convey a sense of retreat. The washbasin, the centrepiece of every bathroom, is available in a range of stylish colours: White, Sand, Manhattan, Blue Satin and Smoke. The elegant colours of the washbasins are echoed in the surfaces of the bathroom furniture, creating a perfect tone-on-tone harmony.

Unique bathroom worlds may be created as single or double washbasin solutions. Widths of 800 mm and 1200 mm, with a choice of one or two drawers, ensure that there is adequate storage space. The delicate edges of the extremely thin 4 mm enamel washbasin blend visually with the vanity unit, creating a monolithic look that makes the furniture and washbasin appear as one. In addition to the velvety, silky matt finish, the fine furniture surfaces are available in a range of high-quality materials such as veneer, ceramic and glass - the latter two of which are also perfectly matched to the washbasin colours to ensure homogeneity of design.

PRESS INFORMATION

The carefully conceived colour concept of EDITION 11 ART is not only reflected in the large design elements but also in the smallest of details. The furniture's side handle is available in the same surface finishes as various KEUCO fittings and accessories.

Comprehensive range with design highlights

The classic series is complemented by the vanity unit with a glass shelf with brackets, a highlight of the collection. An innovative interpretation of a vanity unit, this stylish piece of bathroom furniture is the focal point of a harmonious bathroom design. Wall-mounted yet strikingly upright, it enhances the bathroom through pure elegance.

Matching sideboards, tall units and a mirrored shelving unit with side units complete the harmonious EDITION 11 ART series from KEUCO.

Tone-in-tone from washbasin to accessory

EDITION 11 ART is based on the concept of colour uniformity and homogeneity. Mixer fittings and accessories in numerous KEUCO finishes blend seamlessly with the bathroom furniture and washbasins, which are available in perfectly coordinated colours. This creates a bathroom design that exudes tranquillity and elegance - a place where all the elements interact in balance and create a coherent design.

Harmonious inside and out

The interior of the EDITION 11 ART drawers is always finished in elegant carbon black, creating a striking harmony. The carbon black storage boxes blend in seamlessly, while veneer versions echo the look of the veneered body. The longitudinally arranged boxes structure the lower area, while transversely arranged boxes open up additional storage space on a second level. These storage solutions are perfect for both vanity units and side units.

Individual customisation options

For design fans who want to individualise their bathroom even further, KEUCO offers the EDITION 11 ART special design. A wide range of bathroom furniture can be ordered in all RAL Classic colours and combined with the five washbasin colours to create a unique bathroom that express the personality of the owner.

Bright solutions from KEUCO round off the washbasin area

The round light mirror is not only a visual highlight. For optimal light intensity, the light colour can be flexibly adjusted via the sensor switch from 2700 to 6500 Kelvin. The mirror heating is activated automatically when the light is switched on, ensuring a clear view even following a shower. In terms of design, it blends seamlessly into the harmonious appearance of the EDITION 11 ART bathroom furniture and washbasins and perfects the harmonious overall effect created.

For additional storage space, it can be ideally combined with the SOMARIS mirror cabinet from KEUCO. The mirror cabinet is characterised by its minimalist and user-friendly design.

Thanks to the individually selectable back and side panels, which perfectly match the colours of the EDITION 11 ART bathroom furniture, the bathroom design is colour-coordinated down to the last detail. The side panels are also available in all RAL Classic colours, to match your personalised bathroom furniture.

A design that sparks emotions

With the EDITION 11 ART from KEUCO, the bathroom can be transformed into a place of calm and well-being. The uniform colour concept gives the room a calming aesthetic, while the high-quality materials and meticulous workmanship create a luxurious experience. The combination of puristic design, innovative materials and perfect colour scheme creates a bathroom that exudes harmony and style.
