# A FASCINATION FOR THE BATHROOM

Sensuousness and sensibility – KEUCO’s passion for the bathroom runs through its veins, and this is evident in our products. A KEUCO bathroom awakens the emotions. It is an intimate place of well-being. It conveys elegance and luxury, and it combines aesthetics, ergonomics and functionality.

In no other room is this challenge more exciting and demanding than the bathroom. That is why this fascination still drives us forward. Since its founding in the year 1953, our company, which is still family-run today, has undergone a rapid and sustained transformation. From market leader for high quality bathroom accessories, KEUCO has evolved into the brand for the bathroom, with a wide assortment of furniture, fittings, accessories and mirror cabinets and from our early days we focused on offering concepts of complete bathroom furnishings.

Important factors contributing to our success are the contemporary, technically innovative products, the highest standard of quality, a clear orientation towards design, and state-of-the-art manufacturing facilities. Today, KEUCO products are sold around the world, and are market leaders in many areas. They are the result of intensive development work, the use of the best materials, and the most careful workmanship. We combine high-tech manufacturing and involved hand craftsmanship to achieve optimum results. KEUCO quality sets standards: Our products will convince you by their immaculate surfaces, maximum longevity, and perfect functionality. Each article is examined individually before being shipped out.

At KEUCO, the subject of design already played a pivotal role long before it even became a general topic of conversation. Our understanding of design involves striving to achieve classic-modern aesthetics that retain their contemporary feel, even after many years of use. Whether designed in-house or in cooperation with internationally recognized designers – KEUCO products are regularly distinguished by renowned awards.

But timeless design and long-lasting product quality are only two aspects of our sustainability philosophy. Equally important are responsible company management, and resource-saving production – with the help of our own water conditioning system for our electroplating plant, for example. We view the label “Made in Germany” as commitment to the kind of company management that aims to secure jobs in the long term.

KEUCO products are made in our own production plants in Hemer, Gütersloh and Bünde. Inland production provides us with a close proximity that is essential, so that we can develop and utilize the know-how of our employees on a long term basis, and so achieve seamless quality management. And that makes “Made in Germany” a promise of quality.

# EDITION 90

---

“EDITION 90 merges the round with the square in an opulent symphony of form, marked by a conscious use of materials. The visual statement of the design is consistently square on round”.

Dominik Tesseraux, Designer

# FREEDOM OF PURE FORMS

Circle meets square: EDITION 90 from KEUCO merges the round with the square in an opulent symphony of form, marked by a conscious use of materials. The clarity of the design language found in the 90 degree angle is reflected consistently throughout the entire collection of bathroom elements. Developed by the renowned Tesseraux + Partner design agency in Potsdam, EDITION 90 presents unique and luxurious bathroom worlds.

# CLEAR AND OPULENT

The design of KEUCO's EDITION 90 fittings uses a language that is clear and consistent. The visual statement of the design is consistently "square on round". The design of the fittings is marked by precise contours and brilliant chrome surfaces. A range of fittings is available which includes a single-lever mixer for the washbasin, a wall spout fitting in various sizes, and a three-hole basin mixer which are marked by precise contours and brilliant chrome surfaces. A monolithic first impression and appearance, as if it were one piece, shine a light on a distinctive character of highest exclusiveness.

## INCORRUPTIBLE

The big round head shower with a uniform rain pattern guarantees sensual showering. The installation is simplified by a sensible clever detail: thanks to a flexible joint on the shower arm it can be adjusted and brought into the exact horizontal position.

## STABILITY

The elegant free-standing fitting for free-standing bath tubs is a real eyecatcher. It has a remarkably luxurious exterior that houses some very special technical features: The functionality for switching from the bath tub fitting to the hand shower is integrated in the fitting, so it can be conveniently switched with a simple hand movement. In a vertical position the fitting lever is set to "off". When in backward position the water flow is always switched to 100% to fill the bath. The further the lever is moved backward, the hotter the water gets. Moving the lever forward regulates the water flow through the round pencil hand shower. Here the temperature and amount of water are controlled the same way as a conventional single-lever mixer.

# DESIGN WHICH STAYS

Genuine everyday heroes. Clever functions in an opulent look guarantee to bring an exclusive touch to any bathroom making it a tasteful place to spend time. The wide range of EDITION 90 accessories can be purchased together with a glue set which means that you do not have to drill holes.

# HOLISTICALLY THOUGHT

Perfection through to the smallest of details is evident in the appearance of the double hook. As with the single hook, the double hook is completely flat at the front and two minimalistic notches present the possibility of towels or clothes hangers.

The elegantly shaped shower shelf holds the magnetic squeegee masterfully and unobtrusively.

Exceptional design for ordinary everyday items: The toilet brush set presents itself in a bright chrome. Things such as a mobile phone or glasses can be placed on the shelf space of the toilet paper holder.

# HIGHLIGHT IN THE BATHROOM

KEUCO light competence is manifested in the EDITION 90 light mirrors: Double-sided LED sources guarantee a glare-free and shadow-free illumination of the face. The significance is underlined by the circumferential chrome frame.

-  light colour warm white
-  light colour daylight white
-  washbasin illumination (bottom)
-  Main illumination (top)

# FREEDOM IN DESIGN

Washbasins and furniture are like soloists that can be shaped into harmonious compositions to reflect your personal taste and preferences. They can be used completely independently of one another, with a choice of sizes and positioning, no matter which spacing. So EDITION 90 offers enormous freedom for creative design, with the ability to flexibly arrange the solitary pieces to suit your needs. The luxurious design of the wall-mounted ceramic washbasin is available in white or slate grey.

# SHAPED TO YOUR PREFERENCES

Soloist furniture can be shaped without almost no limits where interior design is concerned: KEUCO bathroom furniture is available either as a wall-mounted version, with base, or as a more modern version with legs. Genuine wood veneers and textured lacquers with matt or gloss finish radiate elegant comfort and holistic flair in the bathroom – your personal space. Cover plates made of glass or ceramic with a marble or slate finish are available for the side units as a tasteful upgrade.

EDITION 400

# OUR IDEA OF FREEDOM OF DESIGN

# PASSION MAKES THE DIFFERENCE

With EDITION 400, KEUCO is setting new trends in modern bathroom design. The design-oriented bathroom furnishing concept has a strong focus on individualisation. Every single one of the products in the series – from the bathroom furniture to the washbasins, the fittings to the accessories, the mirror cabinets to the light mirrors – beautifies with its uniquely delicate and simultaneously sculptural language of form. Versatile combination potential, colours and materials offer a wide spectrum of possibilities for intelligent, room-specific arrangements. Useful functions add order and convenience to the bathroom and establish a unique ambience. Distinguished with the “Design Plus” seal of quality, EDITION 400 – conceived by the design agency Tesseraux + Partner in Potsdam – sets new standards for the bathroom of the future.

# MODULARITY WHICH HAS BEEN THOUGHT THROUGH

Fully in accordance with preference and demand, but always extremely clear: Versatile furniture and washbasin combinations offer a room-specific bathroom design and lifestyle in the bathroom. Thanks to the modular concept and the large variety of colours and materials of EDITION 400, there are no restrictions to personal creativity for planning your bathroom – regardless whether it's for families, couples or individuals.

# BATHROOM DESIGN OF 1001 TYPE

At the heart of EDITION 400 is the exclusive washing area. The single and double washbasin solutions can be combined with the ceramic basins in widths of 600 mm or 800 mm, for versatile planning and design. Further combination possibilities with EDITION 11 or ROYAL 60 washbasins from KEUCO in their soft or rectangular styles open up an extremely wide choice of creative wash area designs with EDITION 400 – perfectly matching in combination with the respective mirror cabinets and light mirrors.

The wide range of furniture for the washbasin is completed by either wall-mounted or floor-standing side units, and middle and tall units. In the large selection of front surfaces, too, no wish is left unfulfilled: For example, various colours of structure lacquers are available whose special surface resembles natural materials. Classy real wood veneers, such as walnut, create a sensuous, natural atmosphere. Shiny or satin glass cover plates add an extravagant flair.

# CLEAR ORDER WITH LOTS OF ROOM

The reduced size of the external vanity unit provides generous interior storage space. This offers a large amount of storage space with system. The drawer units are available in two heights. For example, the drawers are opened with functional push-to-open technology and closed by means of a soft-close technology. Therefore, everything fits in to the structured geometry without handles and forms a clear architectonic line. The high quality inner compartment of the drawers ensures that everything remains where it belongs.

# SENSUOUS SHAPES IN GLEAMING CHROME

A characteristic of EDITION 400 is its sensuously beautiful style. The gleaming chrome-plated fittings of the series present themselves like filigree sculptures. Virtually works of art, their extraordinary presence almost makes you forget their actual purpose. Conceived by the design agency Tesseraux+Partner in Potsdam and rewarded the "Design Plus" seal of quality, they are a prominent stylish element in KEUCO's full range of bathroom furnishings.

# ELEGANCE MADE IN GERMANY

The special thing about EDITION 400 fittings is the perfection in the details. The extravagant metallic surfaces of the fittings are an excellent example of this, where the warm bronze, champagne-coloured nickel, and opulent black – so wonderfully underscore the exquisite character of EDITION 400.

This can be seen in the single-lever washbasin mixers in five sizes, with spout heights ranging from 80 mm to 290 mm for any kind of washbasin. A special feature integrated in the spout is the adjustable aerator, which is invisible from the outside. The EDITION 400 range of washbasin fittings also includes a pillar tap, a single-lever mixer with swivelling spout, a fitting for on-wall mounting, and a three-hole fitting.

EDITION 400 fittings are also available with chrome-plated finish.

# STATUE FOR THE BATHROOM

KEUCO's sculptural EDITION 400 fittings speak a language of accentuation. The shower and bath fittings in different finishes provide the perfect excuse to spend a soothing time relaxing in the bathroom. Once again KEUCO has focused on the essentials here – both in the single-lever bath tub mixer as well as in the free-standing bath tub mixer with separate hand shower and practical glass shelf for bathroom utensils. It stands alone, but it can also be perfectly combined with a variety of bath tubs.

# CONCENTRATION ON THE ESSENTIALS

IXMO is nothing less than a small, major revolution in the bathroom. As the first in-wall fitting ever it combines minimalistic design with maximum functionality in as few individual modules as possible. This creates a unique design freedom to personalise the bathroom. All visible modules have the same small outreach and compared to other systems small decor disc dimensions. Discover the new player in the bathroom for yourself – with the interactive planning tool at [ixmo.de](http://ixmo.de).

# PURE DESIGN – THE LATEST TECHNOLOGY

The innovative illuminated mirrors are a special highlight. The EDITION 400 illuminated mirror presents itself with remarkably elegant slenderness and a surrounding aluminium edge. Customized dimensions are available on request. Its secret: A special light-conducting material conducts the light of the LED to the surface and provides the ideal lighting for the room or face at all times. With unobtrusive and intelligent sensor controls the light can be dimmed and the light colour altered in an infinite number of steps: From bright-white daylight for ideal, day-to-day beauty care, right to a warm-white light, ideal for perfect evening make-up or an atmospheric bathing ambience. Moreover in every light situation the LED lighting is glare-free and long lasting, and it also saves energy and is maintenance free.

But the EDITION 400 light mirror can do much more: It is optionally available with mirror heater, which is a practical feature that prevents the mirror from misting up after taking a shower. Of the highest technical standard, the sensor-controlled mirror heater switches off again automatically 20 minutes after being switched on.

# STORAGE SPACE MEETS LIGHT TECHNOLOGY

The EDITION 400 mirror cabinet impresses both due to its beauty and its function. The continuous setting of light intensity and light temperature, a consistent reflection of the back and insides of the door, the clear internal lighting, as well as lots of space with an extra storage compartment and integrated electrical sockets make the mirror cabinet a useful and sensual part of your bathroom.

# INTELLIGENT USE OF ROOM IN THE WALL

A clear case of aesthetics: The built in mirror cabinet is discreetly fixed into the wall and blends with the room. The external, delicate silhouette does not immediately point to the generous depth of its interior.

Both light intensity and light temperature from daylight to warming light can be gently and continuously controlled, so that you will happily spend a little longer in front of this mirror.

# DELICATE DESIGN ACCESSORIES

An aesthetic of filigree design, special functional features in the details, and high quality – this is how EDITION 400 accessories set special accents and create a sensuous atmosphere in the bathroom. With their practical functionality and elegantly slender appearance they pamper the user.

Harmoniously coordinated in design are also the lotion dispenser and tumbler holder – two perfectly matching companions. Combined with a utensil shelf, the accessories add homely comfort to the bathroom.

# UNLIMITED HOSPITALITY

Even though EDITION 400 is at home in the discerning private bathroom, it can be found more and more in the upscale hotel branch. For both areas of use, KEUCO has designed a remarkable towel rack with integrated towel holder. The filigree elegance of the softly rounded forms and the slender rectilinear contours is underscored by a unique combination of materials comprising coloured safety glass and high quality aluminium.

Despite its extreme robustness the 600 mm wide towel rack seems to hover lightly in front of the wall, throwing fascinating shadows. The four glass colours of dark grey, white, cashmere and truffle are perfectly coordinated with the colours of many of KEUCO's furniture pieces. An eye-catcher for lovers of the unique.

The KEUCO-typical variety of products offers a rich selection and four extravagant colours for discerning bathroom design: Produced using the PVD method, the accessories delight the eye with their warm bronze, champagne-coloured nickel or black chrome finish, in brushed finishes. For towel storage alone the assortment offers everything from towel hooks to towel rings and one or two-armed towel holders. A special feature of the double towel hook is that the towel is hung up from behind – ensuring that the design remains in full view.

# EXTRAORDINARILY PRACTICAL

EDITION 400 is an integral bathroom furnishing concept. In a stylish EDITION 400 bathroom with a feel-good ambience, the intelligent functionality of the accessories is icing on the cake. The shower shelf and shelf for corner installation are made of solid, silver anodized aluminium, so they are particularly unsusceptible to wear and tear and very durable. They come with or without glass wiper: integrated harmoniously in the design, it prevents shower utensils from falling. With their clear and minimalist design the shelves are perfect for every shower, but they are never in the way, despite the generous shelf space they offer.

# DESIGN IN EVERY DETAIL

Also around the toilet area, the EDITION 400 accessories are harmoniously integrated into the architectural environment of the bathroom design. With its particularly delicate design, the toilet paper holder demonstrates that it has the potential to become the next new classic. It is swivel-mounted, extremely delicate and can be easily attached to the wall. Even the wall-mounted toilet brush set impresses with its little secrets: On the outside it presents itself in fine, satin glass; inside it has a practical removable holder. The toilet brush hangs hygienically inside and it is concealed behind a lid.

FREEDOM IS  
HAVING A VARIETY  
OF POSSIBILITIES

# PURE DESIGN – BUT NOT PURISTIC

A linear design, multiplied with an enormously rich variety from bathroom furniture to mirror cabinets and from fittings to accessories – that is EDITION 11. Designed by the renowned design agency Tesseract+Partner, all components stand out with their sense of visual lightness, gentle beauty and feeling of uncompromising quality. One really feels their careful workmanship and innovative functionality at every use. This creates your own quality class in the bathroom, which is apparent for everyone and which always pays off.

Tesseract+Partner  
Dominik Tesseract

# LIGHTWEIGHT AND SUSPENDED

Because of its versatility, EDITION 11 offers the highest degree of freedom in bathroom design. This is assured by the selection of surfaces, the range of sizes and many other areas where a choice is available. The fronts, which seem to float on the face of the furniture, lend a special lightweight and elegant feel to the furniture. When the front drawer of the vanity unit glides open, its interior light switches on automatically. Tidiness is made easy with the freely positionable storage boxes. By combining two sizes, a generous work area is created beside the ceramic washbasin. The washbasin with its gently rounded vocabulary of form is available in the materials Varicor® and ceramic.

# PERFECT HARMONY

EDITION 11 – The innovative furnishing concept offers a linear design and soft forms, multiplied by an enormous range of variations. For lovers of consistently thought-through designs the ROYAL 60 washbasin represents the perfect complement to the mirror cabinets and bathroom furniture of EDITION 11. In classic, rectangular form, the most convincing thing about the ceramic washbasin both inside and out is its precise, high quality workmanship and flat design. With its generous shelf space all round in the three sizes of 700, 1050 and 1400 mm, it offers individual and creative planning potential for bathrooms of any size. Together with the EDITION 11 vanity unit, which borrows from the washbasin's filigree, linear vocabulary of form, the ensemble adorns any bathroom like an extraordinary jewel.

# GENEROSITY IN LIMITED SPACE

A host's attitude towards guests is shown not least in the bathroom made available to them. Therefore EDITION 11 also presents well-coordinated, impressive furnishings, compatible with each other and a representative guest bathroom. The elegant ceramic washbasin measuring 435 x 435 mm can be installed with a custom-made solid oak wood washtop, or can be combined with a matching vanity unit with one of the wellknown EDITION 11 surfaces. The washtop, made of solid oak wood, is available in different colours – light oak, platin oak and tabacco oak. Bespoke versions are available in widths ranging from 700 mm to 1500 mm.

# CLEAR LINES, IMPECCABLE DESIGN

The renowned design agency Tesseraux+Partner was commissioned to design EDITION 11. The fittings and accessories are in a class of their own, with a level of quality that you can see and feel and which pays off in the long-term.

The perfect chrome-plated washbasin fittings of EDITION 11 are optimally suited for every kind of use. Whether as a smaller model for the guest WC or especially high for washbasin tops and convenient hair-washing – they fulfil any wish regarding individual bathroom planning.

Produced using the PVD method, fittings with extravagant metallic surfaces in warm bronze, champagne-coloured nickel and opulent black – in a brushed finish – embody the beauty and lasting quality of EDITION 11.

Tesseraux+Partner  
Dominik Tesseraux

Three-hole fittings with a difference: Temperature regulation on the left, flow rate on the right. After adjusting to your own desired temperature, by pulling it up, the regulator can be returned to its initial position so that the temperature setting is retained.

As with all EDITION 11 washbasin fittings, the wall fitting with single-lever mixer has a flow rate limiter. It is available with three different length spouts.

-  **Black Chrome**  
brushed
-  **Bronze**  
brushed
-  **Nickel**  
brushed

EDITION 400 fittings are also available with chrome-plated finish.

The particularly appealing design of the freestanding bath tub mixer with a separate waterway for the hand shower is very impressive. A gem in the bathroom, it can be combined with numerous bath tubs and, no matter what one's personal interior design is, gives every bathroom a special touch.

Shower rail and hand shower reiterate the weightless elegance of the design of EDITION 11. In the four-hole bath-edge fitting with hand held pencil shower head the basic quadratic form of EDITION 11 is reflected in the decor disc. The bath tub mixer shines in immaculate chrome lustre, with flow and temperature regulators situated on the side.

# INNOVATIVE COMBINATION

IXMO fittings combine more functions in fewer modules. This means that the same functions can be incorporated in either more or fewer visible parts, entirely as you like it. IXMO is available with filigree, quadratic decor discs that matches the design of the EDITION 11.

# SELECTED SHAPES IN EVERY DETAIL

KEUCO's typically large variety of products offers a rich selection for attractive bathroom furnishing. For hanging up towels alone, the assortment ranges from classic double towel holders to chic one-armed towel holders and vertical guest towel holders (along with towel bins) which can hold up to six guest towels. The product range also includes an intelligent towel ring, which has an integrated spacer ensuring that damp towels can dry properly at a sufficiently ventilated distance away from the wall.

The chrome-plated shower basket comes optionally with a conveniently integrated glass squeegee. It is easy to clean, and offers generous space for soaps, shampoos, and similar. Because of its rounded form on the inner surface, the handle, with its concisely crafted edges, has an especially pleasant feel to it.

On the right: Soap holder with removable glass dish and the double tumbler holder with mouth-blown tumblers made of crystal glass.

-  **Black Chrome**  
brushed
-  **Bronze**  
brushed
-  **Nickel**  
brushed

EDITION 400 fittings are also available with chrome-plated finish.

EDITION 300

# CHARACTER INSTEAD OF INDIFFERENCE

# A STRIKING, ERGONOMICALLY THOUGHT-THROUGH DESIGN

KEUCO design is determined by aesthetics, functionality and ergonomics, not by the kind of logic that characterizes mass production. The fittings and accessories of EDITION 300 clearly exemplify this philosophy and make it something to be experienced. Convenience of use coupled with striking elegance. The brilliance of the perfectly worked surface emphasizes the characteristic contours.

reddot design award  
winner 2006

Tesseraux+Partner  
Dominik Tesseraux

# FLEXIBILITY FROM ITS MOST BEAUTIFUL SIDE

Uncompromising in bathroom planning: For everything you envisage EDITION 300 has a matching product for you. You can choose between wall, single-hole and triple-hole washbasin fittings; between light mirrors and mirror cabinets, and between different dimensions and surface combinations. All according to our motto: The more freedom there is in planning, the longer the enjoyment in use. When opening, the drawers of the vanity units slide without a sound. Their dividers offer you intelligently organized storage space in which your body-care utensils won't get mixed up.

# LASTING IMPRESSIONS FOR SHORT STAYS

The guest WC is a special calling card in every house. With its impressive functionality and stylish elegance, EDITION 300 is ideally equipped to leave an excellent impression with your guests. With the small, only slightly projecting washbasin size it's possible to design even guest WCs with much charm. Even the towel holder and the vanity unit with front drawer and integrated towel opening offer much comfort for small rooms.

# CONSISTENT COMBINATION MADE EASY

At KEUCO accessories are much more than just useful additions. It is also important that they can be blended in any combination to form a harmonious visual whole, perfectly coordinated to the characteristic design of the rest of the bathroom furnishings. EDITION 300 does this beautifully.

WHEN PLANNING FREEDOM  
BECOMES STANDARD

# STYLE ACROSS THE BOARD

The perfect complement to the PLAN S single lever mixer is the linear bathroom furniture, washbasins and light mirrors of the new PLAN series. Here Tesseraux+Partner in Potsdam again played a leading role.

The integral architectural approach is evident in every detail. The furniture is unobtrusively linear. From the cubic body to the luxurious glass fronts to the rim of the light mirror and even the filigree base support, the design and colour concept is omnipresent. The base supports are optionally available in four widths from 500 to 1200 mm for washbasin base units, tall units or sideboards.

In the naturally-inspired colours of cashmere, truffle and stainless steel or classic white or anthracite, each piece of furniture is uncompromisingly modern. Crowning them are washbasins with flat designs. Impressive across the board.

# FREE-FLOWING LANGUAGE OF FORM

The impressive thing about PLAN ceramic washbasins is the soft, flowing shape of their flat design. Being the extremely easy-to-care-for material that it is, fine ceramic stoneware satisfies the highest standards of durability and hygiene. Depending on the chosen width from 500 to 1200 mm, single or double washbasins are available with generous surface space for different fittings. Of course, all solutions can be combined with KEUCO fittings.

# DOWN TO EARTH DESIGN

However you view it, the new PLAN bathroom furniture is exciting. Aesthetic contrasts are its heart and soul. Mounted on the wall, the furniture exudes presence, but still emanates a certain calm and lightness. This may be due to the tone-in-tone look of the body and the handleless glass finish. Whatever the case, it is trend-setting.

Combined with the optional filigree metal support, the unobtrusive furniture makes a strong statement in the room. With their high quality lacquer finish, their colour perfectly matches the chosen body. Regardless of the bathroom size, the furniture and washbasins in sizes ranging from 500 mm to 1200 mm in two heights create a special atmosphere.

# THE CONCEPT UNFOLDS

The integral PLAN bathroom furnishing concept also includes sideboards and tall units. Here, sensuousness pairs up with sensibility. The body is available in five contemporary colours. The premium glass fronts have a lusted lacquer coating on the back. The stainless steel metal look has matt satin glass.

The tall unit surprises with a shelf integrated on the side. Indiscernible from the front, the unit offers abundant space for one's daily bathroom utensils.

The design of PLAN furniture also features intelligent functionality in the details. With its additional interior drawer, the high vanity unit has a surprise in store. The tidy arrangement inside allows direct access to your care articles and is tailored practically to your needs.

# PICTURE PERFECT

Like all KEUCO products, the PLAN crystal and light mirrors feature both aesthetic as well as practical components. Combined with the linear furniture, they form a harmonious whole. The surrounding frames emphasize the perfectly-coordinated colours to great effect. Although it must be said that the lacquer finish of the premium aluminium frame is still very durable and easy to care for.

Innovative LED lights are integrated in the upper edge of the PLAN mirror frame. Thanks to the careful sorting of the individual LED modules, the effect of the light is very harmonious, ensuring perfect illumination of the face. The control unit is integrated in the slender frame and offers very intuitive operation. The light colour can be varied, and the washbasin and main lighting can be switched on or off and dimmed separately. The next time it is switched on again the intelligent electronics remember the most recent lighting scenario. A practical mirror heater is available as a further option.

Heater

Warm-white  
light colour

Daylight-white

Main lighting  
(top)

On/Off

The PLAN S fitting has a filigree, upward-pointing control lever that impresses both aesthetically and practically. Positioned to the side, the spout stays clean and dry even when using the lever with wet hands.

The single-lever basin mixer, which was developed specially for the Varicor® washbasin, is an eye-catcher in every respect. Sovereignly, it stands alone raised on a small base in the washbasin. Excellent design, with you in mind.

# SUPERBLY DESIGNED EVERYDAY HEROES

PLAN series' accessories are popular worldwide and have proven their worth a million times over – in hotels, public buildings and private bathrooms. By constantly talking with architects, planners and installers, we are still discovering new places where demand exists for aesthetic and useful solutions.

The lotion dispenser with its practical single-handed operation and the cup for easy filling are worth showing off at the wash-basin. The one-armed towel holder from the extended PLAN product range is available in two sizes: 340 and 450 mm.

# FUNCTIONALITY IN THE DETAILS

How much design and functionality can be incorporated in accessories? More than meets the eye – at least with the new PLAN shower shelf. Because, a glass wiper is integrated almost invisibly in the design. Available in brilliant chrome, matt aluminium and high quality stainless steel like all new PLAN accessories, the shower shelf optionally also comes without the glass wiper.

The perfect counterpart to this is the robust 135-degree-angled handhold. The integrated soap holder can be taken out for cleaning, and the grip is available as either right or left-sided variant. The shower shelf, glass wiper and soap dish are available in the colours dark grey, light grey or white.

The luxurious towel rack made of safety glass offers sufficient space for the shower towels of hotel guests.

# EVERYTHING CONSIDERED

The PLAN paper holder with shelf matches the available finishes for PLAN accessories with bright chrome plate, matt aluminium and high quality stainless steel finish. With a non-slip and scratch-free storage space made of fine linoleum mobile devices, coins or other pocket contents can be held in a safe place.

The PLAN product family unites timeless design, maximum functionality and outstanding quality.

PLAN accessories are at home all over the world, offering an extra amount of intelligent functionality anywhere they are found. The new 5 litre PLAN cosmetic waste bin finally solves the problem of that unsightly bit of bin liner that is always visible. Because, cleverly and elegantly, an exterior jacket in chrome, stainless steel, aluminium or white is slipped over the inner bin and liner. So, from the outside the bin liner is not visible.

Specially developed for commercial use, the double toilet paper holder with roll brake integrates itself seamlessly into PLAN tradition. And anyone who values comfort will appreciate the moist tissue box with sealing ring, allowing it to be closed airtight.

ROYAL 60

LINEAR, PURE  
AND SIMPLE

# ARCHITECTURALLY ORIENTATED INTERIOR DESIGN

Clear, linear and minimalist – that is the new concept of KEUCO's ROYAL 60 collection. The sleek design, so full of lightness, comes to the fore thanks to its restraint – for your own personal vision of modern bathroom design. Its formal reduction creates calmness and accentuates the geometry of the room. This design relies on understatement that is beyond time and fashion trends. ROYAL 60 – the bathroom concept for minimalist aesthetes.

Basin mixer and accessories EDITION 11

Tesseraux+Partner  
Dominik Tesseraux

# LINEAR, SLENDER AND CONTEMPORARY

Stylish combination: ROYAL 60 vanity unit with EDITION 11 washbasin

The furnishing concept ROYAL 60 from KEUCO presents itself with clarity and purity. Bathroom furniture and washbasins of the ROYAL 60 collection adhere to a linear language of form, and offer great combination potential. The rectangular washbasin with generous shelf space all round is available as single or double washbasin. For lovers of soft forms the EDITION 11 washbasin with its softly rolling lines is the ideal addition, thanks to the same width sizes of 700, 1050 and 1400 mm. Its unobtrusiveness brings the slender, exceedingly lightweight design to the forefront. The various EDITION 11 accessories and fittings are the perfect addition: Regardless whether you choose a single-lever basin mixer, a three-hole basin mixer or wall fitting. Combining with the fittings and accessories of EDITION 300 opens up a huge variety of possibilities in bathroom architecture too.

Basin mixer and accessories EDITION 11

The inside of the vanity unit also has an impressive amount of storage space and a flexible system of dividers. The superior quality solid beech wood boxes inside the pull-out guarantee the best of order. The boxes prevent items stored inside from falling when opening or closing the drawer and can be adjusted or removed depending on personal needs; this gives the possibility of putting them where you need your bathroom utensils.

ROYAL REFLEX

# THE SUBJECT OF GLASS REDISCOVERED FOR THE BATHROOM

Basin mixer PLAN blue, accessories PLAN

# HYGIENIC, ROBUST, PERFECT

Even over the decades glass with a lacquered underside still loses none of its brilliance and its colour intensity. Because of the way it reflects light it adds a special atmosphere to every bathroom. ROYAL REFLEX is always an eye-catcher – whether in strong, powerful tones or in discreet colours. Consisting of washbasins, bathroom furniture, light mirrors and mirror cabinets, this furnishing concept leaves no wish ungranted.

# PERFECT WORKMANSHIP, INTELLIGENT DETAILS

Basin mixer and lotion dispenser ELEGANCE

Our passion for detail makes daily use of ROYAL REFLEX a pleasure not only in terms of aesthetics, but also functionality. Contained behind the gently gliding front drawers with handles on the sides is a sophisticated storage system in which every bathroom utensil finds a suitable place. Intelligent storage details: The hanging wooden box is slidable and easy to take out. The dividers fixed by magnets on the base of the front drawer can be positioned as you desire.

# LOTS OF ROOM IN A SMALL SPACE

Basin mixer PLAN blue, accessories PLAN

With its perfect dimensions ROYAL REFLEX adds elegance and generosity even to small guest WCs. The vanity unit with buffer, door left or right hand hinged, creates storage space even in a small area.

# ONE INDIVIDUAL SIGNATURE, MANY FORMATS

If glass is so important, then mirrors are indispensable. ROYAL REFLEX offers mirror cabinets and light mirrors in customary, outstanding KEUCO quality – matching all sizes from the double washbasin right down to compact models for the guest WC.

Unobtrusive elegance: Just as with the mirror cabinets, the light mirrors are also available in all six washbasin sizes. The mirror is framed on both sides by the vertical lighting. Glass shelves behind doors with mirrors on both sides offer plenty of storage space. Two interior electric sockets and one exterior light switch provide perfect functionality.

# DISCOVER MORE

Making a difference is what our product developments are all about. The difference can be found in the functionality. Or in the product design. Or better yet, in both – paired with excellent KEUCO quality.

## KEUCO ONLINE

Explore our products and other brochures online:  
[www.keuco.com](http://www.keuco.com)

There you can find the complete product overview with article numbers, measurements, technical drawings, mounting instructions etc.

The extraordinary surface characteristics and extremely fine colour nuances of our products can only be reproduced to a certain degree in print. Only the original KEUCO products can provide an optimal impression. They can be seen in the showrooms of sanitary trade dealers.

Reproduction and copying, even if only excerpts, are only permitted by explicit permission of the manufacturer, and with the inclusion of source information. KEUCO GmbH & Co. KG, PO Box 1365, D-58653 Hemer.

We expressly reserve the right to make technical changes for the purpose of improvement, as well as colour and design changes that are deemed necessary. Print errors and omissions excepted.
