

PURE ELEGANCE FOR GUESTS

The holistic furnishing concept of KEUCO PLAN now offers sensual functionality even in the smallest of bathrooms – the powder room. Developed by Tesseraux + Partner design agency from Potsdam, the small-scale washbasin ensemble comprising of a ceramic washbasin, high quality vanity unit, and slim LED light mirror impresses with its aesthetic unity – and is perfect for small and narrow rooms.

Coordinated in width and color, the washbasin ensemble forms a single harmonious unit. Available in five colors each piece of furniture is convincing with its straight yet unobtrusive design. For a stylish upgrade of the narrow vanity unit, there is also a modern version with legs in the same color. Whilst the LED light mirrors are strong in presence, they exude an almost cautious calm. And with their luxurious surface finishes, they exactly match the color of the chosen furniture.

But PLAN is not just available for the powder room. Discover the numerous possibilities now at www.keuco.com
