### **EDITION LIGNATUR by KEUCO and TEAM 7: Exclusive bathroom furniture made of solid wood**

#### **Holistic bathroom concept for different lifestyles**

Furniture made of solid wood are a supreme discipline in the bathroom. The luxurious bathroom concept EDITION LIGNATUR comprising furniture made of natural wood are the result of many years of bathroom competence of KEUCO and the traditional art of woodworking manufacturer TEAM 7. Each piece of EDITION LIGNATUR furniture, designed by Designbüro Tesseraux + Partner, Potsdam, is unique, custom-made for each individual order and pieced together by hand.

The range of premium natural wood surfaces has been extended with wild white oak, a light wild oak with dark knotty areas which is superbly rounded off with a special treatment using natural white oil – giving a special look. Further premium types of real wood are oak and Venetian oak made of former oak piles from the lagoon city of Venice, each with its natural markings from shipworm, as well as a noble walnut surface.

Our EDITION LIGNATUR range has also been extended when it comes to washbasins, fittings and mirror cabinets. There are many more planning possibilities for exclusive bathrooms with premium solid wood – a choice of single or double washbasin units, let in or top-mounted washbasins, sideboards, tall units or middle units, as well as bench seats. The vanity units for round washbasins, as well as sideboards and middle units, either with ceramic or glass plates are included in the range of products. Moreover, KEUCO offers practical free-standing accessories to match the design and type of wood, which can be freely-positioned in the bathroom.

Washbasins made of Varicor or ceramic can be combined with the noble wood surfaces. Round ceramic top-mounted washbasins in white or slate grey complement the product range. Prominent variant: A specially developed free-standing fitting stands enhanced in the middle of the washbasin. The washbasins can also be combined with KEUCO on-wall fittings.
