KEUCO EDITION 400: 1001 ways to design a bathroom

Passion makes the difference

With EDITION 400, KEUCO is setting new trends in modern bathroom design. The design-oriented bathroom furnishing concept has a strong focus on individualisation. Every single one of the products in the series – from the bathroom furniture to the washbasins, the fittings to the accessories, the mirror cabinets to the light mirrors – beautifies with its uniquely delicate and simultaneously sculptural language of form. A versatile combination potential, colours and materials offer a wide spectrum of possibilities for intelligent, room-specific arrangements. Useful functions add order and convenience to the bathroom and establish a unique ambience. Distinguished with the “Design Plus” seal of quality, EDITION 400 – conceived by the design agency Tesseraux + Partner in Potsdam – sets new standards for the bathroom of the future.

EDITION 400 – a bathroom concept that allows you to create a dream room, the way you like it. At the heart of EDITION 400 is the exclusive washing area with washbasin and vanity unit – available by request as custom solution with worktop and modular base cabinet or freely combinable side units. In addition to a wide range of furniture, available in trendy colours and surfaces such as structure lacquer, high-gloss lacquer or genuine wood veneer, there are also numerous ceramic washbasins in various shapes and sizes.

One of EDITION 400’s most innovative highlights are the mirror cabinets and light mirrors: not only the energy-saving LED lighting is dimmable, but the light colour can also be adjusted in an infinite number of steps – from bright white daylight to a warm, white light. The light mirror has a sensor-controlled mirror heater, which prevents the mirror from misting-up.

With their extraordinarily filigree and delicate appearance, the fittings and accessories of EDITION 400 are the centre of attention. Each product is like a unique sculpture. Soft, organic shapes combine harmoniously with straight contours, and charm the viewer with graceful elegance. With its top-notch workmanship and perfect chrome surfaces it is a visual treat for demanding aesthetes.
