PLAN accessories from KEUCO: Most comprehensive collection in the world

Aesthetic, reliable and versatile everyday heroes

With its roughly 500 products, the PLAN series from KEUCO is the most comprehensive bathroom furnishings concept in the world. The collection offers versatile solutions for both private and hotel bathrooms as well as public sanitary facilities. Thanks to its high aesthetic standard, the best functionality and outstanding quality, the PLAN collection has become a sought-after, contemporary classic among architects, planners and installers. With its expanded assortment of accessories, PLAN will continue to impress in future through a unique variety of alternatives and timeless design.

Additionally, PLAN accessories are available in brilliant chrome, matt aluminium and high-quality stainless steel.

The PLAN **cosmetic waste bin** offers an extremely clever and smart solution with its 5 L volume: The inner bin including refuse bag has an outer mantle in chrome, stainless steel, aluminium or white. Thus the refuse bag is always hidden from view. The cosmetic waste bin can be conveniently operated via a separate cover. Moreover, a slip-resistant base makes it particularly stable.

With its single-handed operation and aesthetic cup for easy filling, the **lotion dispenser** is extremely practical too. The attractive thing about the **shower shelf** in dark grey, light grey or white is its little secret in the form of a wiper integrated invisibly into its design. It is also available without the wiper.

The perfect counterpart is the robust **grab bar** at a 135 degree angle **with integrated soap holder**, optionally as a right or left-sided variant. The soap holder can be taken out for cleaning and is available in three colours.

For commercial and hotel use, the PLAN series also includes a **double toilet paper holder** with roll brake. The luxurious **towel rack** made of safety glass offers space for guest's towels.

PRESS INFORMATION

A one-armed **towel holder**, which is available in two sizes, and a **moist tissue box** with sealing ring so it can be closed airtight, round off the extended assortment.

Both PLAN fittings in their familiar design as well as the new design interpretations of the PLAN S fitting series perfectly match all PLAN accessories.
