### **KEUCO ROYAL LUMOS LED light mirror: design for the senses**

#### **Perfect light and practical warmth**

The ROYAL LUMOS light mirror from KEUCO is the highlight for a luxurious and high-quality bathroom design. The washbasin isn't the only thing that is perfectly lit-up by the power of the illuminated surrounding LED rim. A perfect illumination of the face and the perfect light for any time of the day and atmosphere are additional specials. As an exclusive upgrade a practical mirror heater is also available.

With the intuitive control panel the LED lighting on the ROYAL LUMOS light mirror can be dimmed and the light colour adjusted in an infinite number of steps: From a 6500 kelvin daylight white light, ideal for daily care, through to a 2700 kelvin warm-white light, ideal for the perfect evening makeup or an atmospheric ambience for a bath. Therefore the illuminated surrounding rim always ensures that the beholder's face is fully illuminated and shadow-free. The ROYAL LUMOS also has two different light sources, each of which can be separately controlled: On one hand the main lighting of the surrounding rim, and on the other hand additional washbasin lighting, which adds a particularly beautiful light to the setting and can also serve as convenient night light.

But the ROYAL LUMOS light mirror has even more to offer: As an option, a practical mirror heater is available, which ensures fog-free visibility after showering. It is an innovation that is both practical as well as intelligent. After twenty minutes the heater shuts itself off automatically.

With all its extras the ROYAL LUMOS inspires the senses and makes the time in the bathroom more enjoyable than ever.

The ROYAL LUMOS from KEUCO is a blend of precise workmanship, top “Made in Germany” design, and sophisticated technology. In the 45 degree angle of the fine corners the surrounding rim frames the light mirror like a picture. The LED light radiating from within the translucent rim gives the mirror cabinet a lightweight appearance, as if it is hovering in front of the wall.
